

AGITATOR SPECIFICATION

ANCHOR AGITATOR

Discover the best Anchor Agitator supplier in Singapore for industrial mixing needs. Our agitators are designed for reliability and efficiency, providing optimal performance in various industrial applications. Rely on our high-quality Anchor Agitators to enhance mixing processes in your industrial operations.

MOTOR POWER	0.37-100 kW
SHAFT DIAMETER	25 to 250 mm
IMPELLER TYPE	Anchor impeller
VISCOUS APPLICATION	High
MOC	MS, EN-8, SS304, SS316, SS316L, Duplex & Super Duplex Steel,

PADDLE AGITATOR

Explore the best Paddle Agitator supplier in Singapore for industrial mixing requirements. Our agitators are crafted for efficiency and reliability, ensuring optimal performance in various industrial applications. Trust in our high-quality Paddle Agitators to enhance the mixing processes in your industrial operations. Paddle agitators are made up of two flat paddle-shaped impeller blades that extend to the tank walls. If minimal axial and radial flow is necessary, they are employed. These impellers are used for mixing low viscosity liquids, crystallization, dissolution, and heat transmission, and they may create a laminar low shear flow. Paddle agitators are a straightforward type of agitation apparatus made to provide uniform laminar flow with little shearing force.

MOTOR POWER	0.37-100 kW	MOC	MS, EN-8, SS304, SS316, SS316L, Duplex & Super Duplex Steel,
SHAFT DIAMETER	25 to 250 mm		
IMPELLER TYPE	Paddle impeller		
VISCOUS APPLICATION	Low		

PROPELLER AGITATOR

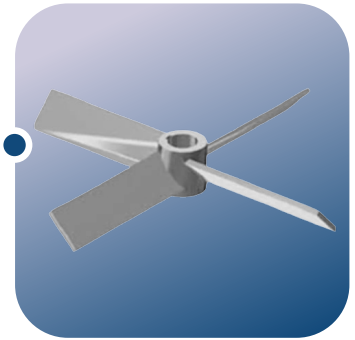

Best Propeller Agitators in Singapore from a leading supplier. Our agitators are designed for efficiency and reliability, ensuring optimal mixing performance in various industrial applications. Trust in our high-quality Propeller Agitators to enhance your industrial mixing processes.

MOTOR POWER	0.37-100 kW	MOC	MS, EN-8, SS304, SS316, SS316L, Duplex & Super Duplex Steel, (Comes with Various Lining RL, FRP, PP, PTFE)
SHAFT DIAMETER	25 to 250 mm		
IMPELLER TYPE	Paddle impeller		
VISCOUS APPLICATION	Low		

TURBINE AGITATOR

Discover the best industrial Turbine Agitator supplier in Singapore for efficient mixing solutions. Our agitators are engineered for reliability and performance, ensuring optimal blending in various industrial applications. Trust in our high-quality Turbine Agitators to enhance the mixing processes in your industrial operations.

MOTOR POWER	0.37-100 kW
SHAFT DIAMETER	25 to 250 mm
IMPELLER TYPE	Turbine impeller
VISCOUS APPLICATION	Low

MOC
MS, EN-8, SS304, SS316, SS316L, Duplex & Super Duplex

HELICAL AGITATOR

Best industrial Helical Agitator supplier in Singapore for superior mixing solutions. Our agitators are designed for efficiency and reliability, ensuring optimal performance in various industrial applications. Trust in our high-quality Helical Agitators to enhance the mixing processes in your industrial operations.

MOTOR POWER	0.37-100 kW
SHAFT DIAMETER	25 to 250 mm
IMPELLER TYPE	Turbine impeller
VISCOUS APPLICATION	Different density and viscosity

MOC
MS, EN-8, SS304, SS316, SS316L, Duplex & Super Duplex Steel, (Comes with Various Lining RL, FRP, PP, PTFE)

GET IN TOUCH

Our Office : 9 Yishun Industrial Street 1, #04-64 North Spring Bizhub, Singapore 768163

Other Services : Operation Maintenance | Quality Management | Fabrication Piping | Service & Overhaul
